## **AJBoggs – TelNet Partnership Announced**

EAST LANSING, MICHIGAN, October 24, 2017-- AJBoggs and TelNet Worldwide, Inc. (TelNet) announced a strategic partnership to offer services in telecommunications, cybersecurity and managed Internet hosting. TelNet is strategically investing in expanded capacity in its fiber network, cloud, data center, call center, Internet and voice solutions. AJBoggs' IXN® and 911.net Teams provide managed services with expertise in cybersecurity, web, disaster recovery, and data-loss prevention services. Our professionals are passionate about delivering innovation, quality solutions, and an exceptional customer experience. Both companies are collaborating to sponsor the North American International Cyber Summit to strengthen cybersecurity in our region. It is set to take place on October 30, 2017 at COBO Center [www.michigan.gov/cybersummit](http://www.michigan.gov/cybersummit).

### Comments on the News:

“Together, TelNet and AJBoggs bring a robust offering of talent, bandwidth and infrastructure to compete in the networked economy. Our team is dedicated, with customer focus and a deep suite of cloud services to help our clients be more secure, effective, and competitive,” said Clarke Anderson, CEO of A.J. Boggs & Company.

“TelNet has joined AJBoggs to expand its data center and cloud solutions, offering additional cybersecurity, HIPAA data management, PCI compliance, and data exchange services which enhance and simplify the ways businesses communicate and collaborate,” said Mark Iannuzzi, TelNet President.

### **About TelNet**

TelNet Worldwide is a premier Michigan-based provider of business-essential data center and cloud solutions, unified communications, networking, and contact center services. TelNet's advanced Tier III data center in Southfield offers high power density, A/B/C/D redundancy, and carrier-neutral connections in a clean, ultra-secure environment for assured service availability. In addition, TelNet's Grand Rapids data center provides complementary geographic redundancy and backup solutions. Our flexible and scalable solutions are tailored to meet our customers' specific needs. For more about TelNet, go to [www.telnetww.com](http://www.telnetww.com).
